V-Plow

Benetech's V-Plow uses a simple and reliable floating blade design to ensure a consistent ride.

Its sturdy "V" frame attaches to the mounting pole at two points, with a third point attached to an adjustment arm. This arm allows the V-Plow to be height adjusted in small increments in order to fine tune installation.

FEATURES & BENEFITS

- 4-in. tall rubber blade with easy bolt-in blade replacement ability
- Attaches to the mounting pole at two points with a third point connected to a height-adjustment arm for fine-tuning installation
- Includes wire safety cable for belt protection

| Belt Width | RUBBER BLADES - Part Nos.* |
|-----------------|----------------------------|
| 18-in. (450mm) | BVP2-018-0R1C2 |
| 24-in. (600mm) | BVP2-024-0R1C2 |
| 30-in. (750mm) | BVP2-030-0R1C2 |
| 36-in. (900mm) | BVP2-036-0R1C2 |
